IT for Business

London Systems Specialise in IT for London

The London Systems approach is about being straight forward, transparent and simply excellent. Because we don't believe in complex cost structures, confusing service models or variable support levels.

We understand the importance of a robust, reliable and scalable IT solution, where cost should match quality and your IT partner cares about your business as much as you do.

Based in the heart of London we support businesses across the city and beyond with tailored IT solutions at a fixed, per user price.
We take the time to understand your business in order to provide IT support services designed around what you need.

Friendly Expertise

Approachable and communicative with the expertise to deliver the right IT solution. We can manage part, or all of your IT infrastructure including your legacy systems. We will also advise and provide new tools to enhance the performance of your team and subsequently your business.

Making business-as-usual excellent

IT shouldn't be a worry, a frustration or a huge cost. It should help your business and your team to perform at their best, providing the freedom and security to work better.

Your IT partner

We provide an infrastructure that quietly gets on with the job, friendly support when you need us and scalable when you want it. You can trust us to get on with the day-to-day maintenance and care of your critical business systems and always be looking for opportunities to improve performance.

The Connect365 solution

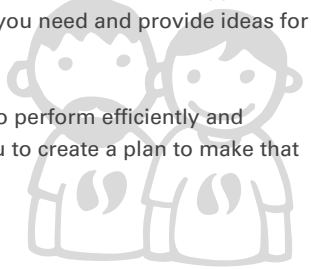
Powered by Microsoft, created and supported by London Systems. Connect365 is a flexible, agile and cost effective IT solution for business. Providing your team with access to all of the essential programs and applications they need – regardless of where they are, or what device they are using.

Informed advice

We'll always conduct an on-site IT audit before making any recommendations. This involves spending some time with you at your business, to understand your current infrastructure and IT frustrations.

We assess your IT processes, hardware, software and support. We'll compare what you have with what you need and provide ideas for closing the gap.

Ultimately we want your business to perform efficiently and productively. So we'll work with you to create a plan to make that happen.



Switching is Easy

Switching to London Systems is easy
We've created a straight forward 5 Step switch process to ensure that you gain peace of mind as well a new IT provider, quickly and painlessly.

- **Audit**

Conducted at you place of business, we listen to your IT frustrations and find out what you want your IT to do, now and in the future. The audit is an opportunity to ask questions, gain an expert opinion and get to know each other.

- **Quote**

We are always transparent about cost and honest about the best solution for your business. We provide a comprehensive report of our audit including our recommendations, cost and a full explanation. Then we'll call you to make sure that it all makes sense and answer any questions you have.

- **Hardware or Hosted?**

If you don't need hardware or a Hosted System, skip to the next step!

If you do, we'll need to arrange with you the best time to come and install your new hardware, which could even be at the weekend. We'll also need to work with other parties to set-up your Hosted System, but whatever needs to be done we'll always keep you updated and deliver on the agreed date.

- **Transition**

It takes about a week to transition over to us, or sooner if you need us to take over immediately. We'll manage all of your 3rd party suppliers and the only thing you have to do is continue with business as usual.

- **Go Live!**

The results of good planning and communication is a smooth and speedy Go Live. You'll notice the difference with London Systems – excellent IT, transparent approach and straight forward pricing.

Should you be experiencing IT problems that are crippling your business, we can organise immediate take-over. Contact us today.
